HOW DO I GET MY BADGES?

Ask your Scout or Guide leader to run the Challenge in your unit / group. Even if you don't take part as a group, you can still complete the Challenge at home or your local library to qualify for the badge. When you tick the box to say you are a Scout or Guide you will qualify for your badge. Then just give your Certificate of Achievement to your Scout or Guide leader.

Scout leaders are to forward certificates to:
Bek Hobbs, Branch Program Support Officer, Scouts Australia (SA Branch) at: program@sahq.scouts.com.au

Guide leaders are to forward certificates to:
Tina Brown, Assistant State Commissioner,
Girl Guides SA at: ASC2@girlguidessa.org.au

Badges will be sent out from HQ.

For more information visit commissionersdigitalchallenge.net.au

* Only taking the Challenge outside of school qualifies you to earn a badge. If your school is already taking the Challenge, you can still earn a badge by taking it again outside of school using different activities (Zoom Out! / Learn to Speak Robot) or creating a new design (Space to Dream).

COMMISSIONER'S DIGITAL CHALLENGE

Who can get these badges?

Only Scouts and Guides in SA who complete the Commissioner's Digital Challenge!

commissionersdigitalchallenge.net.au

COMMISSIONER'S DIGITAL CHALLENGE

THERE ARE 3 DIFFERENT CHALLENGES FOR SCOUTS AND GUIDES TO TAKE IN 2021

TRY ONE OR TRY ALL!

commissionersdigitalchallenge.net.au

ZOOM OUT

Systems thinking shows how you can make huge positive changes to the world so it is a really important skill for all future leaders. No internet? No worries - choose between an online activity or a downloadable real life dynamic group activity requiring no devices!

commissionersdigitalchallenge.net.au/systems-thinking

SPEAK ROBOT

Coding and computational thinking show you how to get computers what you want them to do, to create amazing new ways of doing things. Get started with Code.org's Hour of Code activities with Minecraft characters, the Grinch or NBA to name a few - or code a musical instrument with Code Club Australia – there are hundreds of activities to choose from and each takes 20m to 1 hour. Complete any 4 activities to earn your badge! You'll need internet to complete this activity unless your Unit Leader downloads and prints one of the unplugged activities.

commissionersdigitalchallenge.net.au/digital-thinking

SPACE TO DREAM

You will hear what space is really like from a real astronaut and then you'll design a toy or gadget for someone your age who is moving to Mars. You will do this using '**design thinking**' which is a process for solving any problem that's used by professional engineers all over the world! You can make your design with free 3D software or you can just draw your design with pens and paper. Submit your design and it may even feature in the Commissioner's travelling Space to Dream exhibition in 2021.

EARLY LEARNING UNPLUGGED

Younger scouts and guides might like to try Early Learning Unplugged (this is a downloadable activity that needs to be printed and just uses crayons, paper and dance!).

*Note: Participants earn a certificate but **do not** qualify for a badge.*
